Mexico To Finance 2nd Tour By Group

Coolidge Ensemble To Visit 7 Major Cities During August 1964

The Latin American rhythmic ensemble of Coolidge junior high school is going back to Mexico—with expenses of its second "youth of the border" tour paid by the Mexican government.

The trip, to be made in August 1964, will follow by two years the student musical group's widely-acclaimed venture in international good will.

Approval of the plans was voted unanimously Thursday night by the ensemble parents' group.

Plans call for the ensemble to tour seven major cities of Mexico—all state capitals. They are Mexico City, Yucatan, Guadalajara, Puno, Morelia, San Miguel de Allende, Puebla and Acapulco.

The ensemble's trip

Possibility of making the trip this summer had been discussed, but by the time arrangements could be completed it would not have been possible to include Yucatan.

That city, located on an eastern peninsula, will be reached by a train ride through the jungle; there are no highways leading to it.

The Mexican Department of Education, in issuing the invitation to the ensemble, announced that it will pay all expenses of the Granite City contingent of 20 students and 15 adult chaperons reaches the border.

It is planned to raise the estimated \$35-per-person round-trip fare between here and Laredo, Tex., through local concerts by the ensemble. The American government had been considering providing such funds but gave an adverse ruling this month.

The first tour was financed by concerts and by contributions from local individuals and organizations.

Robert D. Todoroff, Coolidge band director and conductor of the ensemble, and Eugene Alsas, Granite City schools' art director who served as public relations director for the 1962 tour, will go to Mexico City July 27-Aug. 2 of this year to complete final arrangements for the 1964 trip.

Budget, Contract Issues Could Mangle

Wages, Projects Due To Be Decided In New GC City Appropriation

No agenda has been set up for tonight's 8 o'clock Granite City aldermanic meeting—the fourth-Monday combination of a city council session followed by committee meetings—but several major items of business are due to be acted upon.

Business includes the 1963-64 budget related decisions on wages and projects, and action on bids for replacement of a

hose that has settled on Hill avenue near Wayne avenue.

The \$1,700,000 appropriation placed on first reading last Wednesday night represents a decrease of \$30,000 over the final 1962-63 budget of \$1,730,000.

Debt reduction, budget changes, increases of about \$130,000 and decreases of approximately \$80,000.

Decreases proposed are \$40,000 in the sewer maintenance allocation; \$23,000, the amount budgeted last year for the sewer and street repairs; \$12,000 of the budget for the Illinois municipal fund; \$3000 for pumping station operation; and \$2000 for parking meters.

Fire, Street Increases

Major increases are \$38,000 for the fire department, \$86,000 for the police department, and \$100,000 for new equipment to "balance" the amount of men and machines.

Increases of \$5000 for legal expenses, \$3000 more each for judgments against the city, the city planning commission, and the legislative department, \$2000 additional each for fire department and city inspection, and \$1000 more for street lighting.

The fire department change includes \$40,000 for construction of a new West Granite City station, \$18,000 for repair of damaged fire truck and elimination of a fire truck purchase in 1962-63.

It is planned to omit hiring of extra police and firemen, leave the same as at present, provide funds in case a pollution-drainage pumping station in 1963-64, provide additional money for sidewalk repairs and curb and gutter construction.

\$20,000 Saving Not Apparent In Budget

A section of the new city budget has caught the attention of Granite City aldermen skeptical of past claims that a year-old garbage collection contract would result in large savings.

Instead of the 19 men employed on the former city collection staff, the contract provided for 10 men to do the work with four or five men.

The \$147,500-a-year three-year contract had been given to United Disposal Corp. without a call for bids, despite opposition by part of the council, and Mayor Davis predicted savings of more than \$20,000 annually.

The new appropriation for garbage and refuse collection and disposal, placed on first reading last week and due for final adoption tonight, totals \$161,590, compared to \$163,590 in 1962-63 (contract in effect last ten months of that fiscal year).

Yearly expenditure reports show \$164,892 spent in 1962-63 and \$168,011 in 1961-62.

Sewage Not Blocked

Since there has been no halt in sanitary sewage flow in the area, Sternberg labeled the request for a \$20,000 contract not justifying his committee being left in the dark, as was the case in the initial contract award.

Mayor Davis defended his contract authorization as necessary due to there being an emergency, and his stand was backed up by Street Superintendent William Warfield and Al Pearson, engineer employed by the city.

Johnston of East St. Louis, William McGee, an alderman and city engineer, disagreed, saying no emergency existed.

Sternberg contends that for all intents and purposes the emergency exists—since the resumption of the sewer project is to be delayed until next Wednesday night.

Following tentative action tomorrow night, the board will conduct a public hearing Aug. 27, at which time the contract will be immediately after the hearing.

Supt. Harold M. Kaiser plans to submit an analysis of future sewerage projects to the board today at the board office, 2014 State street.

New Bids On Manhole Replacement Expected To Go Before Council

Emergency or merely urgent business? Definitions vary, but replacement of a Hill avenue manhole is expected to be authorized tonight by the city council of Granite City, enabling the urgent matter—or emergency—to be resolved.

Initial proposals—differing in price—were thrown out July 15 when the aldermen voted 8-6 to halt work authorized by Mayor Davis. Lack of detailed specifications to protect the city and taxpayer's pockets—was cited in a move led by Street and Alley Committee Chairman C. H. Sternberg.

At an adjourned meeting two nights later, Sternberg was present to announce the terms of three new bids, which were obtained during a second round of bidding based on extended specifications drawn up by the alderman who is a general contractor.

Quid-Cityans See Amount Of 1st Budget Of Village Undecided

Appropriation For Road Maintenance At Ponton Beach May Be Omitted

At a special budget meeting of the village board of Ponton Beach Thursday evening the budget was referred back to the ordinance committee to be revised.

But in rapid-fire succession, the board adopted several ordinances, ranging from a law requiring the taking of a village census to the prohibition of profanity in the village.

When the budget was considered, a question arose on the amount to be appropriated for maintenance of the village's four miles of streets and roads.

A total of \$1900 had been set aside in the proposed \$7500 budget for this purpose, but Board President Thomas Stafoff opposed its inclusion, citing a verbal agreement between officials of the village and Namekold township that the township would continue to maintain village streets and roads terminated after the village was incorporated.

Stafoff said Namekold Supervisor Harry A. Briggs agreed to maintain the village roads free of charges until the end of the township fiscal year, since township already had appropriated money for this purpose before the village was incorporated.

By the time the township board ended, Stafoff said, the village was expected to have funds collected from the first 15 days of taxes. The village would then turn over these funds to the township in return for work on village roads, and the township would continue the responsibility of maintaining the roads.

In other action by the board, four new ordinances were adopted in short order and a fifth ordinance was referred to the ordinance committee for alteration. All of the adopted ordinances were passed after being suspended to eliminate second and third readings.

Cost Of Cakes
One ordinance bans gambling and miscellaneous offenses in the village, including profanity, intoxication, disorderly conduct, sale of indecent publications and distribution of advertising material by placing it on or in parked vehicles.

A question arose as to whether campaign cards or buttons would be construed as advertising material. Attorney Mateosian said that a special law would be made in regard to this type of material, but permission from the village board would be required for distribution to parked cars.

Also adopted were ordinances requiring the licensing of florists and dry cleaners in the village. The license fee for both will be \$25 a year. The ordinance specified that dry cleaners cannot conduct their operation in a frame building.

Study License Fee
An ordinance requiring a village census to be taken according to state law was adopted, and a proposed ordinance to prohibit sale of ice cream and other confections from motor vehicles in the village without a license was referred back to the ordinance committee when Board members agreed that the \$100 license fee and \$300 fine were too high.

The next meeting of the board is scheduled for August 12.

Heat, Humidity Set New Electric Power Records

For the second consecutive day, a new record for use of electricity was set Friday, the Illinois Power Co. has announced.

Demand by customers reached 930,000 kilowatts, C. E. Mathias, area manager, said. The previous record of 915,000 kilowatts was set the day before.

The peak was not exceeded over the weekend because many industrial plants were closed.

On June 7, 1963, a peak of 897,000 kilowatts had been reached, exceeding the winter peak of 875,000 kilowatts established in January 1963.

Mathias said use of air-conditioning and cooling equipment, in addition to regular use of electricity, was responsible for the increased demand Thursday and Friday.

The four major generating stations operated by Illinois Power have a net generating capacity of over 1,000,000 kilowatts. A new unit of 385,000 kilowatt capacity currently is under construction at Illinois Power's West River plant.

It is expected to be completed during the summer of 1964.

Construction activity for July in Granite City, as indicated by building permits issued by building inspector Earl Bloomquist and City Clerk Al Stevens, continued slightly ahead of the slow pace of last month as total values topped the \$100,000 mark.

So far 39 permits have been issued during the month with values of \$109,478.

Building permits were issued during June with the construction valued at \$156,402.

Commercial Permits
During the past week, five of 11 permits were issued for minor commercial projects.

They were obtained by Herman Steinberg, 1833 Edison avenue, for repairs to a building at 1833 Edison avenue, to erect a storage room, 1833 Edison avenue, to remodel a porch into a bedroom, \$500.

A permit for a garage was issued for 1401 West St. W. Dorich, 2425 Washington avenue, \$700. Two for remodeling and repairs to homes were obtained by John Tempa, 2204 Waterman, \$257. Re-roofing and general repairs, \$345, and Tracy McCormick, 2300 Grand avenue, general repairs to porch, \$200.

Firemen Say Turn Off Car Engines At Stations

An appeal was issued Friday by the Granite City fire department for motorists to comply with the state law requiring that auto engines be shut off while gasoline is being added to their tanks. Reason for the law is that a spark could set off a fire, endangering the vehicle and possibly its occupants.

Major resistance from drivers occurs in the winter, when heaters are operating due to cold weather, and in the summer, when they do not wish to turn off their air-conditioners. Assistant Chief Curtis Donley said. He noted that service station attendants have no choice under the law and must ask each motorist to turn off the engine.

Donley also stressed the law against carrying gasoline in glass jars or in other containers not meeting minimum safety standards.

APPALOOSA HORSES of the type which will be featured at the annual Granite City Rotary club horse show to be held Aug. 25.

Appaloosa, Rare In This Region, To Be Seen At Rotary Horse Show

Appearing in the 1963 Granite City Rotary horse show Sunday, Aug. 25, at the Tri-City Speedway near Mitchell will be a breed of horses quite unknown to many area residents—the Appaloosa.

The spotted Appaloosa, which received its name from the Palouse River in Idaho, gained its prominence as a war horse of the fierce Nez Perce Indians in Oregon, western Idaho and eastern Washington during the early 1700s.

The war-minded tribe selected the Appaloosa because of its fleetness and unbelievable endurance, and saw to it that none of their prized possessions left the tribal lands of the Nez Perce.

Lewis and Clark, on their famed expedition to the Pacific Northwest, were the first white men to see the rugged, spotted war mounts.

Involved In War

Not until 1870 did the Nez Perce venture off their lands with the Appaloosa. In 1870, Chief Joseph led the tribe on a 1600-mile war into Montana with close to 3000 Appaloosa horses.

In 13 battles with the United States Army in northern Montana, Chief Joseph suffered heavy losses and surrendered to General Nelson Miles later in the year. When the dust of war had settled, it was discovered that more than 1900 Appaloosa horses had been killed or wounded. The remaining horses were dispersed by the army and their owners exiled into Oklahoma.

For years following the dis-

asterous battles, Appaloosa horses were scattered far and wide throughout the northwest. Western ranchers neglected to breed the Appaloosa because they considered it too wild to be of any use. Because of this, the horses rapidly disappeared and by the early 1900s only a few head of the once proud herd remained.

Then, in 1938, a group of interested western horsemen organized the Appaloosa Horse club for the purpose of breeding and preserving the famed war mount of the Nez Perce.

Today, the breed is rapidly increasing in number and is becoming one of the favorites of western horse show enthusiasts.

Miss Rosemary Whitten Bride Of William Puhse

Miss Rosemary Anne Whitten, 23, of 2339 Marshall avenue, became Mrs. William Lloyd Puhse Friday evening at Calvary Baptist Church, 30th street and Washington avenue.

The bride is a daughter of Mr. and Mrs. Howard W. Whitten, 2339 Marshall avenue.

Mr. Puhse's parents are Mr. and Mrs. Carl Puhse, 1827 Delmar avenue.

Arrangements of white pom-poms, gladioli and greenery decorated the sanctuary for the 7:30 o'clock ceremony. Rev. Wilbert V. Snider officiated before the altar, illuminated with burning candles in candelabra.

Preceding the service, Larry Hagler, vocalist, sang "O Perfect Love", "Whither Thou Goest" and the Lord's Prayer, accompanied at the organ by Mrs. Isabelle Schmidt, who played the wedding march and recessional.

Mr. Whitten gave his daughter in marriage. She wore a gown of white satin brocade styled with elbow-length sleeves and a street-length bell skirt trimmed with tiny bows in the back and front. Her short veil, which covered the face, was held to a pill-box hat. She carried a cascade bouquet of red Baccara roses.

Mrs. Carol Sue Kuebler, a sister of the bride, was matron of honor. Her dress, designed also with a short, bell-shaped skirt, was of pale pink satin and lace. A circlet of pearls and satin was attached to a brief veil and her flowers were pink carnations, arranged in a cascade.

A little flower girl, Cheryl Lyn Kindle, niece of the bride, wore a pink embroidered nylon dress and a small white hat. She carried a white basket filled with rose petals, the handle tied with a pink bow. Kevin Wimberly, the bridegroom's nephew, carried the rings.

Eugene Kindle, a brother-in-law of the bride, served Mr. Puhse as best man. Ushers were Jerry Singleton and Eugene Wimberly, the latter a brother of the groom.

The reception was given at the church directly after the ceremony and, later in the evening, the bridegroom's parents held open house for the guests.

Assisting at the reception were Miss Linda May Whitten, a cousin sister of the bride, who was in charge of the guest book, and Miss Janice Courtney and Miss Lorraine Hutson, class-mates of the bride.

For her daughter's wedding, Mrs. Whitten wore a pale green sheath dress with white and beige accessories, while the bridegroom's mother appeared in light blue with white accessories. Both wore corsages of white roses.

The bride and groom are both graduates of Granite City elementary and high schools, where Mr. Puhse spent four years in the U. S. Air Force. He is presently employed in East St. Louis. After a honeymoon in northern Illinois, they will be at home at 2161a Benton street.

Even Break For Park Club: Drops Two To Uregas Jets But Rebounds Against VFW

An even break in four weeks of games with visiting Class AA clubs was the best the Granite City park district softball team could manage Saturday and Sunday evening at Wilson Park.

The park dropped two games Saturday to the Uregas Jets of Cape Girardeau, Mo., by the unequal scores of 3-1 and 17-13, then came back yesterday to sweep a doubleheader from Caseyville VFW Post 1117, 2-1 and 4-3.

A pair of walks off loser Carroll Glisson stood up as the deciding factor against the park club in Saturday's first game. Glisson passed Bob Goodwin and John Reed with two out in the second, then gave up a two-run triple to Bill Mabrey.

The park had scored one in the first on Al Borchers' double behind Dan Kelly's single. Goodwin's single, a fielder's

choice and another hit by Mabrey, gave the Uregas an insurance run in the top of the seventh. Gil Robert was the winning pitcher.

Goodwin McBride tagged a Norm Grothe pitch for a bases-loaded home run to provide the early fireworks in the free-scoring second game. But the park caught up and went ahead 4-1. Glisson was the loser in relief and Robert picked up another win, also in relief. Marv Brockway had an inside-the-park homer for the GC nine.

Champion's Homer Enough
Howie Lamb got the park back in the victory column Sunday afternoon, blanketing Caseyville with a four-hitter, making the visitors until the seventh. Playing manager Babe Champion poked a two-run homer in the fourth to give the park all the runs Lamb needed. Art Borchers had reached base on an error before Champion, connected with two out against loser Lou Fluke.

A two-run rally in the fifth ended the sixth inning with a tide in favor of the park in the second game. An error, sacrifice bunt and Ron Dillard's single made it 1-0 GC in the third, and a second run scored in the fourth on Jim Baker's double, an infield out and Borchers' sacrifice fly.

Caseyville got one in the fifth on a walk and Joe Wojtowicz's triple to center field and then took a 2-2 lead in the following frame on successive singles by Ray McAttee, Don Burns and Charles Tourajian and a park error.

Score On Wild Pitch
Loose Ozzie Lamb pitched himself right out of the game in the fifth. Dillard singled with one out and Bain walked. The runners moved up on one wild pitch and Dillard scored on another. Borchers then drove in his second run with a single in right.

Grote, who had started and pitched the first game, came back to pitch the seventh and pick up the victory. He gave the park a 2-17 record for the season.

Wednesday night the club will be at home for a pair of games with Sullivan, Ill. The doubleheader beginning at 7:30.

The feature race feature was won by Louis Janssen, with Don Cunningham second and Bill Peurbaugh third. Peurbaugh and Ray Ranson were fender heat winners.

Six accidents, in which none of the drivers suffered serious injuries, spoiled the program. Pauley and Gene Hanner flipped their machines while turning in modified competition, and there were three upsets in fender class races.

St. Clair, Troy Topple GC Clubs

Dick Dillinger, whose home run broke up the Inter-City Baseball league's annual all-star game at Fletcher Field in Colchester a week and a half ago, led the take for St. Clair. Healing with a two-run round-tripper in the fifth inning here yesterday as the Blue division leaders ripped Mercer Funeral Home 5-3 for their 12th victory in 13 games.

The loss snapped a five-game winning streak and dropped the Granite City club four full games behind St. Clair and 2 1/2 back of the defending league champion Pcoahontas Braves, who scalped Collinsville 7-2.

And Granite City Sacred Heart continued to take its lumps, losing the third in a row and fifth in the last six games, to the Redbirds at Troy yesterday, 4-3.

Mike Lodge, leading the Red division, scored an important 2-1 win over second place Maryville at John Basarich drove in both the winners' runs with a double.

The Alwood Merchants picked yesterday afternoon to win their first game since May 12 as they defeated Carpenter 9-6 at Rockcastle to snap the season's longest losing streak—nine games. Collinsville's loss to Pcoahontas was the Braves' fifth in a row.

At Wilson Park yesterday, Dillinger's shot and Don Heffley's home run staked St. Clair to a 7-1 fifth inning lead over Mercer and losing pitcher Bob Vetter.

Heffley had driven in one run in the fifth with a triple, and the East St. Louis club had touched Vetter for four runs over the first three innings.

Vetter allowed only one more run as Dillinger's seventh homer and Mercer almost caught up in the late innings.

Bill Peurbaugh's seventh-inning double after Rich Branding and Stan Fincher had singled and hit 7-3, and Bob Jones pounded a two-run homer in the eighth to cut St. Clair's margin to two runs. But winning pitcher Gene MacNeill retired the next five batters he faced in the eighth and ninth.

Troy, with two of its six victories gained at the expense of the Hearts this year, scored a 4-1 win in the fifth at the Moonlight field, and that ended the scoring.

Ex-Pennsylvanian came on in relief of Dennis Giger and shut out the Hearts the rest of the game. The fifth was Sherman Sweeney's RBI triple.

Safety Plan Starts At St. Elizabeth Hospital

St. Elizabeth Hospital is currently initiating a new "safe hospital" plan, with the first stages being introduced through the hospital Employees Advisory Council headed by Mrs. Virginia Frey, its president, in conjunction with the administration and personnel department.

A tailor-made operation has been developed especially for St. Elizabeth's by Sister Mary Thomas, administrator; Bernard T. Pinney, personnel director; and T. F. Rebert, methods director.

Ways and means are being established to focus "safe hospital" education to employees as well as to patients and hospital visitors.

Likewise, other functions of the program will revolve around permanent, as well as continuous, check and control devices involving "hazard hunting" accident-prone situations, concentrated "special prevention" of the month, and a master incentive plan.

In the first stage, the incentive of the hospital insurance company, Maryland Casualty Co., along with the Employees Advisory Council, which is a medium of

communications between the administration and employees to achieve total staff integration, optimum effectiveness and spirit of loyalty and pride in the hospital.

Four-Fold Plan
The incentive plan is four-fold. The first award is in the form of a traveling trophy, donated by the insurance company, which is awarded to the department for the greatest percent of accident reduction in one month's time.

A separate award system, an honor roll of 100% accident-free departments, is to be erected in the employee cafeteria. Each honor department will be awarded a chevron for each continuous accident-free month. The department leading in months of accident-free experience will be placed on top in first place.

A third feature, the hospital monthly rating figured by comparison with all other U. S. hospitals' available safety statistics, will be incorporated on the bottom of the monthly honor roll.

Finally, there will be recorded on the "safe hospital" monthly honor roll a "standing" rating in the hospital insurance company, Maryland Casualty Co., to complete the hospital's new approach to hospital safety.

"SAFE HOSPITAL" PLAN at St. Elizabeth Hospital being instituted this week is explained by T. E. Rebert, right, methods improvement director, as he demonstrates use of an honor roll system. Mrs. Virginia Frey, president of the Employees Advisory Council, holds a traveling trophy presented by W. O. Fleming (left), representing Maryland Casualty Co., which is participating in the program. In the rear are Bernard T. Pinney, personnel director, and Sister Mary Thomas, hospital administrator.

State Investment Earnings Up Sharply

State Treasurer William J. Scott has announced that earnings on state of Illinois funds totaled \$8,272,059 for the first six months of 1963, an increase of \$3,461,403 over the same six-month period last year. The state's earnings for June were \$1,566,334, an increase of \$712,966 over the June 1962 earnings of \$853,368.

The treasurer revealed that he now has \$390,416,200 on deposit in over 800 Illinois banks, as compared to \$147,470,000 on deposit at this time last year.

Scott went on to point out that over \$205 million of these deposits are now earning 3 1/2%, and \$185 million are earning 2 1/2% interest. The breakdown of the deposits as of a year ago showed \$100 million earning 2 1/2% and \$87 million, earning only 1% interest.

Dedication Of Lincoln Heritage Trail Aug. 3

The new Lincoln Heritage Trail will be dedicated with a public celebration at New Salem State Park Saturday, Aug. 3. Gov. Otto Kerner will officially open the Illinois section of the Tri-State Trail. Governors of Indiana and Kentucky have been invited to attend, as well as distinguished representatives from Illinois cities along the trail.

The program is free and will begin at 7:30 p.m. It will include nationally-known folk singers and a reenactment of the historic Lincoln-Armstrong wrestling match, with professional wrestlers.

"Folksongs on the Sangamon" is the special "hooray" program prepared by Win Stracke, recording star; George and Jerri Armstrong, interpreters of authentic American folksongs; Gini Clemens, queen of the five-string banjo; Ray Tate, Paganini of the bluegrass guitar and banjo; and vocal and instrumental groups.

The Lincoln Heritage Trail covers sites important in the life of Abraham Lincoln, from Kentucky, where he was born, through Indiana, where he spent much of his boyhood, on to Illinois, from which he went to the presidency.

The Illinois trail has three sections: the main Heritage Trail, where highway markers of a bearded Lincoln show drivers the route; the western trail, including such places as Nauvoo and Galesburg; and the southern trail, which dips into the Little Egypt area. Every visitor to the dedication celebration will receive a free copy of the new Lincoln Heritage Trail Guide.

Farm Bureau Families To Be Honored At Fair

The opening day of the 1963 Illinois State Fair—Aug. 9—has been proclaimed "Agricultural Day."

Thousands of Farm Bureau families from all parts of the state are expected to attend the special day, which is designed to honor Illinois agriculture.

One of the major events of the day will be free admittance to the grandstand to watch the National Midwest Quarter Horse racing championship, which has a purse of \$18,000.

A noon fish fry will be served in the 4-H cafeteria by the Kiwanis club at a cost of \$2 a person. Expanded 4-H facilities in the livestock section will be dedicated at 1 p.m.

Illinois Agricultural Association President William J. Kuhfuss will join the presidents of other Illinois farm organizations on the grandstand just prior to the horse races, and they will be honored by Gov. Otto Kerner.

All Farm Bureau members are being asked to enter the fairgrounds through Gate 7, where they will be directed to a special parking lot in the fairgrounds. They will then report to a Farm Bureau station in the parking lot to pick up identification symbols that can be worn while on the fairgrounds. The symbols are designed to clearly show that the person is a Farm Bureau member.

Farm Bureau members who plan to attend Agricultural Day at the State Fair are being urged to contact Frank Thomas, Madison county Farm Bureau secretary, no later than Aug. 7.

Crop, Soil, Weed Data To Be Field Day Topics

The latest information on crop fertility, soil moisture, weed control and crop variety studies will be shown and explained during the annual Agronomy Field Day at Southern Illinois University Aug. 1.

Tours of the many experimental plots on the Southern Illinois Agronomy Research Center will be emphasized during the afternoon program, beginning at 1 o'clock from the headquarters building. The center, operated jointly by SIU and the University of Illinois, is one-and-a-half miles west of Highway 51 on the City Lake Road southwest of the SIU campus.

Soils and crops specialists from SIU and the University of Illinois will discuss the experiments during the tours.

Some of the studies include minimum and deep tillage for corn, irrigation and soil moisture tests, herbicide usage for weed control, fertilizers for corn and soybeans, forage mixtures and management practices for southern Illinois, soybean and corn varieties and crop sequence experiments.

Farmhand, 1963

Serving Rural Illinois:

Electricity has revolutionized farm life since the "good old days"—when it took endless hours of drudgery to get anything done on a farm.

With electricity as his "farmhand," the modern farmer by-passes drudgery.

Automatic livestock feeding systems, for instance. Corn drying systems that don't depend on the weather. Milking machines. Not to mention lots of conveniences in the farm home that were impossible B.E. (Before Electricity).

Illinois Power serves electricity to more than 100,000 customers in rural areas*—more than twice the number served in the same areas by taxpayer-subsidized rural electric co-ops which get their electricity at low wholesale rates from Illinois Power.

Serving our rural customers, and serving them well, is a most important goal at Illinois Power.

BIDDING FAREWELL to his first guest ever to arrive by helicopter is William Thoeke (right), operator of the Chain of Rocks Motel. The pilot, Frank Mustico of Lafayette Hill, Pa., literally dropped in at the motel Thursday evening.

Guests Drop In At Motel — By Helicopter

A Granite City motel operator received a surprise Thursday evening when a guest literally dropped in at his establishment.

William Thoeke, operator of the Chain of Rocks Motel, By Pass 66 at Highway 67, said a helicopter landed in a large grassy area beside the motel. The pilot, Frank Mustico of Lafayette Hill, Pa., stopped from his craft, a two seater with a bubble front, walked over and asked Thoeke if he had a vacancy.

Mustico explained that he is the new director of the Helicopter Corp. in the central and eastern U.S. The firm has five factory salesmen flying about the country in 'copters trying to generate interest in helicopter flying to make sales.

After flying by commercial jet from Philadelphia to the Oklahoma manufacturing plant to pick up the sample, Mustico was flying back to Philadelphia. The craft, which has a 180-horsepower engine and is worth about \$15,500, has a top speed of about 100 miles an hour. Mustico said he cruises at about 80.

It costs about 15 cents a mile to operate the 'copter, Mustico said. It has a range of 300 miles on a tank of gasoline.

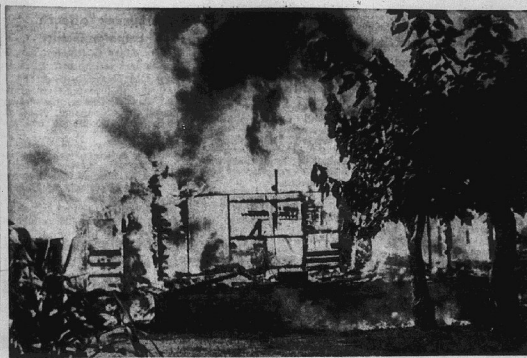

Navigating by road map, Mustico said he planned to stop at Civic Memorial Airport near Alton to pick up additional maps for the return trip to Philadelphia.

Helicopter sales have been moving along quite well, said Mustico, especially export sales.

At 8:45 a.m. Friday, Mustico stepped into his craft after bidding farewell to the Thoeke and several bystanders, revved up his engine and lifted off into the sky. He said he hoped to reach Philadelphia by nightfall.

Construction of a sewage treatment plant near Cahokia will begin soon under terms of a contract between the East Side Levee & Sanitary District and the Chase Co., a Harper Lake, Mich., contracting firm, levee board President Lawrence Tolst said Thursday during a public hearing on the levee district's master pollution abatement program. Seventy attended.

The contract was ratified by the Michigan firm after a brief legal battle between the district and the successful L. J. Linder, who had petitioned to be released from the contract after it claimed \$26,000 clerical error in the preparation of its bid was not allowed by the district.

Contract ratification does not exclude the Chase Company's claim to the additional \$26,000, which is still pending in U. S. District court in East St. Louis. The signed contract for construction of the treatment plant is for \$346,800.

It is designed to handle sewage in section 6C05 in sections of Centerville township.

Levee Board, Chase Firm Sign Contract

Construction of a sewage treatment plant near Cahokia will begin soon under terms of a contract between the East Side Levee & Sanitary District and the Chase Co., a Harper Lake, Mich., contracting firm, levee board President Lawrence Tolst said Thursday during a public hearing on the levee district's master pollution abatement program. Seventy attended.

The contract was ratified by the Michigan firm after a brief legal battle between the district and the successful L. J. Linder, who had petitioned to be released from the contract after it claimed \$26,000 clerical error in the preparation of its bid was not allowed by the district.

Contract ratification does not exclude the Chase Company's claim to the additional \$26,000, which is still pending in U. S. District court in East St. Louis. The signed contract for construction of the treatment plant is for \$346,800.

It is designed to handle sewage in section 6C05 in sections of Centerville township.

Leonard Kampwerth was appointed Thursday by County School Supt. Wilbur Truitt as county school psychologist, replacing Ray Ryan, who had resigned to seek a doctorate degree. Kampwerth currently is with the psychology department of Muscatine State School, Bettendorf, Ind.

Protestant Welfare Provides Aid, Guidance

Providing emergency relief and guidance to area families, individuals, and children who are in need and seek special assistance is the task of the local Protestant Welfare Association.

The association, supported almost entirely by the local United Fund, was founded in 1957 and has grown considerably in the past six years. Last year alone, the welfare group handled 322 cases involving 1,391 persons, compared with 312 cases in 1961 and 184 cases involving 834 persons in 1957.

The non-sectarian aid is provided by the secretary and case-worker, Mrs. Marie Whittle; the 26 members of the Quaker City Ministerial Association who serve as counselors; and volunteer workers.

Case referrals are made to the welfare association by the local police department. Aid to dependent children, case-workers, ministers, area probation officers and local residents.

Material aid — such as food, clothing, shoes and various household articles — is dispensed to needy persons until they are able to qualify for governmental aid.

Typical Case

Typical of the material aid cases handled by the association is a recent one which involved a mother and her young children. The area probation office re-

ferred her to Mrs. Whittle for financial assistance and guidance counseling.

It was reported that she was born and reared in Granite City but since her marriage she and her husband had moved around the country a great deal and had no established residence. The woman's husband drank excessively and was cruel to her and the children.

The woman left her husband in Arkansas and came to Granite City to seek help from her parents. When she arrived in town she found that her parents would be unable to help her and the children because the father was on disability relief and mother was working to earn a modest living for the two.

The township relief office could not help the woman because she had not been here for six months necessary to qualify for government aid.

After discussing the situation in more detail with the woman and checking further into her background, Mrs. Whittle authorized the minister on duty to issue a large order of food and clothing to help the family until the woman could find employment.

Clothing, Furniture

While assisting 1391 needy persons last year, the United Fund agency dispensed 458 relief orders for \$8596, 201 shoes and clothing orders and \$868 worth of furniture and household articles. Relief order help may include groceries, rent, utilities,

clothing, medical aid, and transportation.

To adequately clothe persons in need of such assistance, the agency maintains a clothing store with clothes donated by the community.

Donations from individuals, organizations and churches are used to provide new clothing for children, particularly at the beginning of the school year, Christmas and Easter. The welfare association also loans out wheelchairs and crutches from the store to those needing them.

Counseling Service

Along with material assistance, available each day at the Welfare Association office, 2032 Edison avenue, is a clergyman ready to counsel those coming to the agency with their problems.

At present this involves essentially the immediate problems facing those who seek help, but members of the ministerial association hope to include long-term counseling in the near future. The ministers donate their time and services as counselors.

In 1961, the agency instituted a referral agency for foster home placement. In cooperation with local officials, it recommends homes where children may be placed temporarily.

Recently, \$15,000, or better than 85% of the association's total budget, was allocated by the United Fund to the Protestant Welfare Association for its 1962 budget. The figure shows an increase of \$2000 over the 1961 allocation.

CHOSEN to appear in the children's dancery chorus of "Babes in Toyland" at the Municipal Opera this week, Shelley Rayburn, 10, is the second member of her family in the cast.

Local Sisters Dancing In Opera Production

Two Granite City sisters are appearing in the same St. Louis Municipal Opera production this week—one as a member of the children's dancing chorus and the other as a member of the regular dancing chorus.

The two girls, Shelley and Jill Rayburn, both daughters of Mr. and Mrs. J. A. Rayburn, 2414 Hodges avenue, will dance in the "Babes in Toyland" production July 22-28.

The children's chorus, of which 10-year-old Shelley is a member, will appear in only one production this year. Jill is in her second year as a member of the regular chorus.

Shelley, who has been taking dancing lessons for the past five years, was auditioned at the opera three weeks ago with about 250 children participating.

After a one-day round of eliminations, the members of the chorus selected began a two-week period of daily two-hour practice sessions. During the past week, the children have been rehearsing from 10 a.m. to 4 p.m. daily.

Shelley also has been selected as a page to one of four special made of honor at the annual Valedictory Ball held in St. Louis in the fall. Several girls were selected in May at an audition. The selections were made on the basis of poise and height.
